IN THE CLAIMS

Please amend Claim 1 as follows:

1. (Once amended) A system for automatically dispensing
information, goods, and services for a plurality of institutions
in a particular industry, comprising:

a central data processing center including means for
storing service and price rate information for each
institution and customer sales information;

at least one customer sales and information terminal
[remoteley linked to said data processing center and]
including means for dispensing information and services to a
